

# LB- GREATER BEIRUT WATER SUPPLY

Lebanon

Abstract\* last updated 01-DEC-2010

The project development objective of the Greater Beirut Water Supply Project for Lebanon is to increase the provision of potable water to the residents in the project area within the Greater Beirut region, including those in the low-income neighborhoods of Southern Beirut, and to strengthen the capacity of the Beirut Mount Lebanon Water Establishment in utility operations. There are three components to the project. Component one: bulk water supply infrastructure. Component one will comprise: (a)...[More»](#)
